# Technology to make cash flow

# Transtrack offers a secure, proven and innovative software platform for cash businesses.

## A trusted name

Founded in 1990, Transtrack International is a trusted name in the worldwide cash management and cash handling industry. With clients operating all around the world, Transtrack offers an integrated suite of specialized software products. These are specifically designed to improve efficiency, traceability, security, optimal cash stocks and to support supply chain integration. Transtrack software is used each and every day to serve more than 110,000 locations spread over more than 10 countries worldwide. In the area of Tracking & Tracing IT products, Transtrack is market leader in the cash industry. The Transtrack product portfolio consists of TransTrack, TransCash, TransOptimizer and WebPortal.

## Local support in your region

Our products are developed and maintained centrally to achieve perfect control of functionality. The first line of contact however is addressed locally in order to support our customers quickly and efficiently. For this purpose Transtrack works with an extensive

global network of authorized Value Added Partners, which means we can serve our customers with local support, account management and expertise. Transtrack works closely with partners throughout Europe, the United States, South America, Africa and Asia.

Countries: UK, Netherlands, Denmark, Norway, Sweden, Germany, Austria, Switzerland, Slovenia, South Africa, Italy, Spain, Poland, Ukraine, Turkey, India, South Korea, Sri-Lanka, Singapore, Malaysia, Thailand, USA, Mexico, Sub Sahara. Our partner network is constantly expanding.

## Product leadership today and in the future

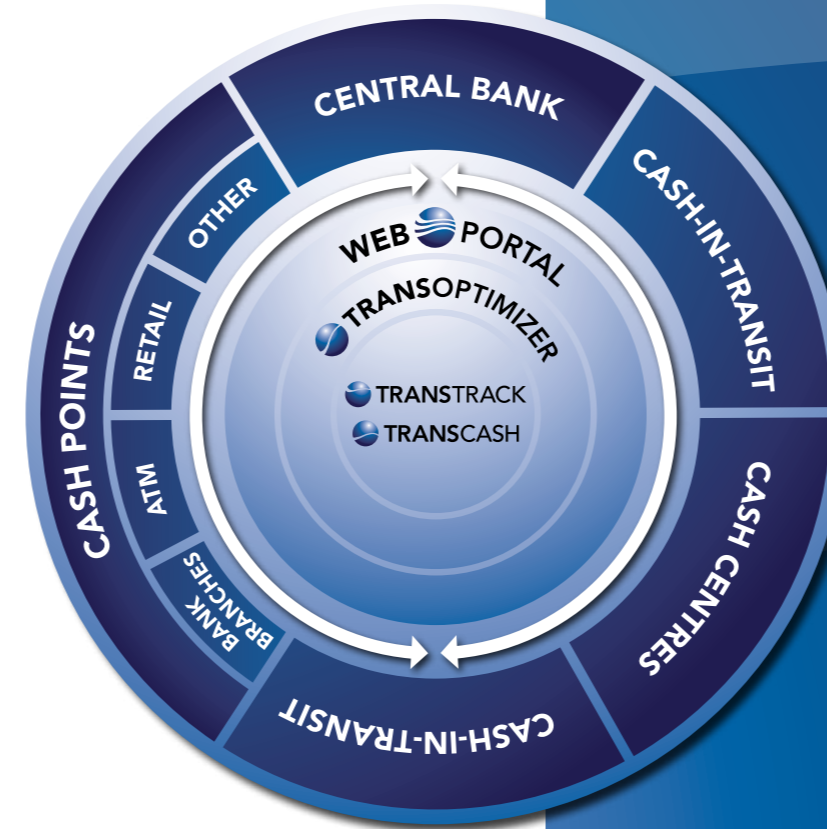

Transtrack supplies state-of-the-art software solutions and outstanding services to clients. In order to achieve this goal our company has adopted a 'product leader' strategy, which includes a continuous investment in product development. This ongoing investment in Research and Development ensures our products meet all our customer's cash handling requirements, both today and in the future. As a result our clients benefit from the competitive advantage we automatically offer them in the area of IT solutions and time-to-market with new services.

Transtrack values the feedback of our customers, which enables us to gain first-hand knowledge of what customers need in terms of functionality. By working closely with our customers and focusing exclusively on the cash supply chain, Transtrack has developed and maintained a high level of customer intimacy. This close cooperation allows us to develop product enhancements and new products that meet the changing needs of the cash market. Customers are also invited to participate in defining future product contents.

## Operational excellence and business benefits

Transtrack's software solutions are designed to support all cash handling and cash management processes. From a technological perspective our products are leading edge, offering maximum security and speed in all aspects of the cash supply chain. Our technology however not only drives operational excellence; it also supports our customers' business goals.

Cash supply chain cycle  
Business processes supported by the Transtrack product suite
